# Creative LED screen

The Unique Design of LED Display

**Seamless Connections** 

**Great Gray Scale** 

**Better Heat Dissipation** 

Innovative Design

Easy Maintenance

Refresh Rate

**Energy Saving** 

Flexible Control

#### **Seamless Connections**

First of all, we applied the latest trapezoidal circuit design that can realize seamless splicing. All the products will be examined by professional QC team before they are delivered.

In addition, we have a variety of customized products to satisfy different requests.

Furthermore, it is worth pointing out what makes it special is its wide viewing angle of 360°.

#### **Better Heat Dissipation**

The module and PCB board are made by high precision CNC machine. Our module adopts the circuit design which serves to dissipate heat. And especially thanks to the over 4 layers of PCB board, its heat dissipation will be better than that of other products. Therefore, LED Sphere Display can be fully used to replace traditional advertising media tools, for example, TV sets.

### **Easy Maintenance**

The display supports front access maintenance, effectively reducing down-time. As a complete system, it supports landing installation, lifting installation, embedded installation and so on.

Applications: Planetarium, Exhibition, Museum, Airport, Railway Station, Shopping Mall, Bar, etc.

#### **Flexible Control**

Creative LED screen can play all-round videos and pictures. It always shows amazing video and picture display effects to our customers. Special PCB design can ensure less distortion of showing picture.

## **Application Fields**

#### CT1 Parameters

ltem	P2.5	P3	P4	P6	P8	P10
Pixel Pitch	2.5mm	3mm	4mm	6mm	8mm	10 mm
LED Type	SMD1515	SMD2020	SMD2020	SMD2727	SMD3535	SMD3535
Screen Size	customized	customized	customized	customized	customized	customized
Pixel Density	160,000dots/m²	111,111dots/m²	62,500 dots/m²	27,777 dots/m²	15,625 dots/m²	10,000 dots/m²
Driving Mode	1/24scan	1/22scan	1/16scan	1/8scan	1/4scan	1/2scan
Minimum Viewing Distance	≥2.5m	≥3m	≥4m	≽6m	≥8m	≥10m
